Fishing Report from Basher Bob Kissinger....

Met up with Bob M and Jeorge at the south end Timmies . As no one else showed up we were off by 10 a.m.

Arrives at Chemainus Lake at about 10:25 with only three other boats on the lake. Chatted to one fellow as he was coming in. He reported that he had one good tug on a black Doc. Sprately

I started with a micro mink leach on a sinking line and within 15 minutes I netted a fat rainbow. Had another couple of tugs on the leach but no hook ups.

Watched a fellow in a blue canoe loose a fish. This fellow turned out to be our own Ian S. and his dog. Ian CLAIMED that he had had a couple of fish to the boat and NUMEROUS bites on a cast rolled muddler minnow before we arrived.

I tried casting a klinkhammer to the risers near the reeds but no luck. I also dragged a bulldog around for a while without success.

As my bum was getting sore I left at about 1p.m. with rest rest of the bunch remaining.

Pic. 3 is the monster.

At home it was a touch over 16 inches and a touch over 2 pounds. Almost nothing in its gut- 2 to 3 very small chronies.

Ian said that the water temp in the shallows was 51°F and in the center of the lake it was 49°F. He also said that his fish finder showed the fish still close to the bottom.

It was a beautiful day

cheers Basher
